TYPICAL CHARACTERISTICS

100% MADE IN BELGIUM

DRUMTECHNOLOGY

All machines are provided by the latest drum technology original designed and manufactured by Jo Beau products®.

KNIVES

The Jo Beau products® knives are turned or replaced in a jiffy. The construction even allows the knives to be turned in the yard resulting in time savings. They are regrindable up to 4 times.

EASY MAINTENANCE

Each machine is fitted with a folding infeed chute for easy access for blade maintenance. Also this makes it possible to make a shorter turn, and makes the machine even more compact!

High rotating chute

Infeed hopper with wide opening

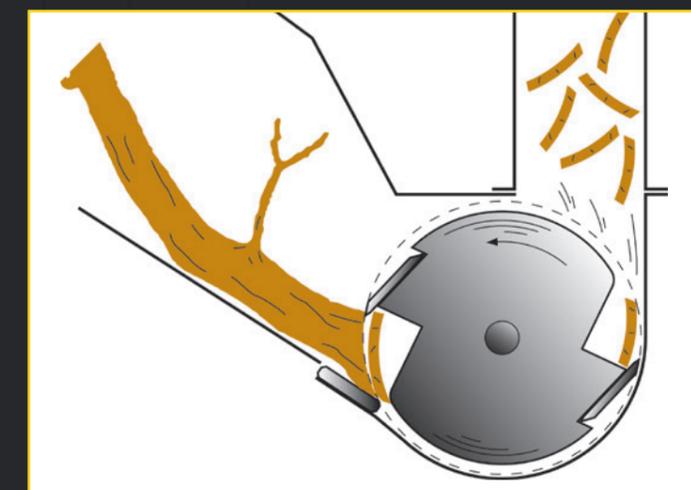

Professional engine

High quality steel

Knife drum on professional bearings

Powder coating

Large pneumatic wheels

TIME IS MONEY

- Immediate catch of the woodchips in a wheelbarrow or trailer.
- Workspeed +/- 25 meter/minute
- Average time to turn knives +/- 15 minutes
- Simple to turn or replace knives yourself

JO BEAU® DRUMTECHNOLOGY

- Automatically pulls branches in without infeed rollers
- Shops the branches against the fiber direction
- Catapults the chips and green waste up from the device

JO BEAU T300

100% MADE IN BELGIUM

CHARACTERISTICS

- Large infeed hopper
- Easy loading height
- Extremely manoeuvrable
- Only 660 mm (25.98 In) wide
- Three-point hitch
- Pivoting infeed hopper for easy maintenance
- Heavy duty drum bearings
- Reversible hardened blades
- Top quality

MADE IN BELGIUM

High quality woodchippers that are designed and constructed for professional users.

Engine	Shaft tractor
Power	Min. 30 Hp max. 50 Hp
Weight	240 kg (529.11 pounds)
Total width	890 mm (35.04 In)
Infeed height	800 mm (31.50 In)
Adjustable discharge pipe	Yes (170°)
Blades	2 reversible hardened steel blades
Counter knife	1 (4x turnable)
Self-propelled	No (easy to move)
Dimensions (LxWxH)	1230 x 890 x 1400 mm (48.43 x 35.04 x 55.12 In)
Drum transmission	Double industrial v-belt

OTHER MODELS

H300

This chipper has the same specifications of the T300 or R300, except this one is hydraulic driven by a loader.
Min. 15 Hp (L x BAR / 450 = Hp)

E300

Electric 11 Kw.
Mostly for use indoors.

R300

The R300 has been designed especially for implement carrier with at least 16 Hp.

H500

is hydraulic driven by a loader and has the same specifications as the T500.
Min. 25 Hp (L x BAR / 450 = Hp).

TRANSPORTERS

TRACKED VERSION

Transforms the M300 and M300 *IN*Telligent into an all access machine. Utilises the Honda HP500 Power carrier.

OPTIONS

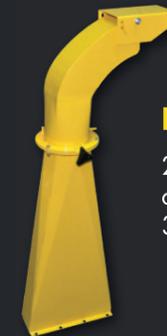

FRONT WHEEL

For the M300 and the M300 *IN*Telligent designed to make the manoeuvrability of the chipper easier.

DETACHABLE PIECE FOR THE DISCHARGE CHUTE

To take of the discharge chute easy and fast. Available as an option for all models.

HIGH ROTATING CHUTE

20cm (7.87 In) higher discharge chute available as an option for the 300, 400 & 500 series.

ROTATING CHUTE

Fitted as standard on the 400 & 500 series and available as an option on the 300 series.

MAINTENANCE METER

For a timely maintenance of engine and device.

LIFTING-KIT T300-T500

Allows connection of a trailer to the pulling machine in order to collect the shreds at the same time.

LIFTING EYE-KIT

Two lifting eyes mountable on the M200 & M300 to safely lift the unit.

PULL-BAR

To pull the M300 behind a quad or garden tractor.
